GaN and ZnO-based Materials and Devices (Springer Series in Materials Science)

GaN and ZnO-based Materials and Devices (Springer Series in Materials Science)

The AlInGaN and ZnO materials systems have proven to be one of the scientifically and technologically important areas of development over the past 15 years, with applications in UV/visible optoelectronics and in high-power/high-frequency microwave devices. The pace of advances in these areas has been remarkable and the wide band gap community relies on books like the one we are proposing to provide a review and summary of recent progress.
