When we finally unravel the mystery of dark matter, will it save our world? Or destroy it?

Winner of Three Book-of-the-Year Gold Medals in Science Fiction

"It's everything I love in a novel... Don't miss this debut!" -James Rollins, NY Times bestselling author of the Sigma Series

Rudolph "Rudy" Dersch is the newly minted CEO of the world's largest, multi-trillion-dollar corporate conglomerate. But the job comes with an unexpected twist—an invitation to join the *Consortium*, a small, secretive group of global elites who effectively decide what's best for the rest of humanity. How does Rudy's struggle to reconcile business and family impact the world's future? And who, if anyone, can break the Consortium's iron grip on the status quo?

The answer may lie with a renegade physicist, close to unraveling one of the universe's greatest mysteries. And a headstrong art curator, driven to find the meaning behind her increasingly compelling visions. From a life-changing moment in a crowded Singapore marketplace, to the business end of an assassin's gun, they face a power beyond any the world has ever seen. To survive, they'll have to decipher the truth about dark matter—before the Consortium can achieve its ruinous end game.

Discover the debut science fiction thriller that raised more than \$25,000 on Kickstarter. Take an epic journey to a not-so-distant future of extreme income inequality, controlled by a handful of the über-elite. A world where wealth, science, and the power of the human spirit get one last chance to determine humanity's ultimate fate.

ABOUT THE BOOK

Dark Matters is a thought-provoking technothriller, set in a world fully polarized by the rift between the haves and the have-nots. It is a world of extraordinary new technologies—but also one of dwindling natural resources, and an ever-swelling human population. Dark Matters offers a unique, entertaining, and (mostly) fictional perspective on the topics of income inequality, the responsibilities of wealth, and our ultimate role in the universe. This epic adventure is the first book in the Dark Matters Trilogy.
