Perhaps, you're like me a few years ago, and you're struggling with the direction your life is headed? Has your momentum stalled and you feel stuck? Maybe you're tired of being alone, or tired of dealing with short-lived romantic relationships. Maybe you simply want a better life you're desperately searching for a way out of the rat race. Whatever your predicament, you desperate for answers but you have no idea where to begin. Unfortunately, just as I believed then, most people today don't believe that they can have what they want because, in their mind, they can't figure out how it will happen. Emotional GPS: A Simple Man's Guide to Navigating Your Emotions in the Pursuit of True Love, Wealth & Prosperity was created to share with you the power of the fundamental principle of the Law of Attraction, and how your emotions can guide you toward the life your dreams. Now, more than ever, people are searching for answers for a "better" life, and the truth is, our emotions play a critical role in why our life is the way that it is. Your emotions act as coordinates on a map, and they indicate what direction you're facing. You're either you facing in the direction of your desires, or you're going in the opposite direction, headed away from your desires. If you're currently caught in the currents of your life – current emotions, current difficulties, and current situations – this book was created for you to enhance your emotional intelligence with a simple 4-step process on how to consciously decide the direction of your life, instead of living a life by default. What do you want? Do you want to be that person who feels good all the time no matter the circumstances? Do you want to feel the ease of life regardless of how much money you have? Do you want to no longer pay the price for what your limiting beliefs are charging you for your life? The greatest risk one makes is the one they don't take. No matter what has happened in your past, know that you have everything within you that is required for you to change your life; what you are to be, you are now becoming. It is my intention that after reading this book, you will be reminded of who you were before the world told you who you should be, and it will propel to become the person you were destined to be. What you'll find within this book may seem quite simple to implement, or it may prove challenging at first, but stay the course! Hold the vision and trust the process. I willingly admit to everyone, that every day is a challenge but I'm committed to living a life according to my vision. It would be a great honor and privilege to partner with you, through this book to support you as you move into your next BIG success. I was once a self-proclaimed the most pessimistic, cynical, and extremely negative individual on the face of this earth. Now, I am the biggest proponent for personal transformation because we were created to achieve greatness by reaching for our inner most treasured desires. Are you ready to accept full responsibility for the current state of your life, and where you want to take it? If so, then "Buy Now". Call me crazy, but I LOVE to see other people happy and successful. Thank YOU!
