Islam and Political-Cultural Europe identifies the sometimes confusing and often contentious new challenges that arise in daily life and institutions as Islam settles deeper into Europe. Critiquing past and recent assimilation efforts in the fields of education, finance, and security, the contributors offer prospective solutions to diverse contemporary problems. Exploring the interactions of Muslim, Christian and secular cultures in the context of highly pluralized contemporary European societies, this book offers a valuable tool for those within and outside Europe seeking to understand the far-reaching implications of combining cultures, the struggles of the Muslim-Christian-secular transition, and the progress which the future promises.
