The Mysterious World Of Angels And Demons (The Truth Seeker's Library) (Volume 9) Roger Henri Trepanier

About the book and the author In this fascinating book, which is based on fact and not fiction, the author examines a world that is unseen to us, but just as real as ours. It is about angels and demons, the good and the evil of the spiritual world. There are many questions answered, revealing such information as the fact that angels do not marry; do not reproduce after their own kind; are neuter, which means neither male nor female; nor do they ever die. Come and find out how they came to be, what they do in time, and what their eventual end is. We might as well know about them, for they are all around us all the time! This is the author's twelfth published work in three different series.
