The Pelvic Girdle: An Approach to the Examination and Treatment of the Lumbo-Pelvic-Hip Region

Diane Lee

The text assists the clinician in the development of a logical approach to the examination and treatment of the lumbo-pelvic-hip region based on the known anatomy, physiology and biomechanics. Written by an internationally respected physiotherapist with experience as both a teacher and clinician, it presents a logical approach to the treatment of the lumbo-pelvic-hip dysfunction based on knowledge and understanding of the related anatomy, physiology and biomechanics. Included is an examination of the effects of evolution on the structure of the pelvic girdle and the changes related to fetal development, growth and ageing.
