Cross-Cultural Psychology: Research and Applications John W. Berry, Ype H. Poortinga, Marshall H. Segall, Pierre R. Dasen

This second edition of the best selling textbook has been substantially revised to provide the student with the most comprehensive overview of cross-cultural psychology available in one volume. The team of internationally acclaimed authors have included the most up-to-date research in the field and two new chapters on language and on emotion. The book covers basic processes and theory and applications of cross-cultural psychology with respect to acculturation, organizational processes, communication, health and national development. The new format, glossary and textual features are designed to enhance reader usability.
