Erica's Tripod: A Book about a Girl with Muscular Dystrophy Cynthia Fabian

What Is Muscular Dystrophy? Muscular dystrophy or MD (pronounced mus-kyoo-lur dis-troh-fee) is a degenerative muscular disease where the muscles of the body get weaker and can stop working. For people who have MD, the proteins in the body are not made properly, and without these proteins, the muscles break down over time, so people with MD have problems with the way their bodies work. Erica has MD and she sometimes struggles with day-to-day problems, but she is learning how to manage her growing pains with the help of her new pet, Tripod the dog. It isn't easy for Erica, as her new dog Tripod is a brand new challenge. Erica's mom has brought home many pets over the years that needed homes. But this time it's different, this dog has challenges of its own. Can Erica make friends with the new addition to the family? Cynthia Fabian is an author and speaker who resides in New Jersey. She spent most of her life as a teacher of English and ESL. Though she no longer teaches, she continues to help children to cope with all types of obstacles in their lives. "It is a joy and pleasure to help others find a way to climb new obstacles and accept older ones. I only hope that children and their families can find happiness and acceptance in their lives." Her other books: *Second Hand Art*, a community survives a hurricane using recycled art. *Orchestra in Our Brain*, a story about a boy with epilepsy and the music our brain creates. *Can't and Able*, an inspirational story about two stars with an anti-bullying theme.
