Every other Child: A Recovery Journey Eileen Barsi

Every other Child is a collection of short stories and poems that represent major life lessons for the author, who discovered that in helping others she not only learned more about herself, but also recovered from a dysfunctional childhood.

Every other Child charts the healing process for a woman who grew up in an alcoholic home. The dysfunctional family had a profound effect upon her, but her awareness of any effect at all did not take place for many years after she had left home. Subsequent experiences that evoked unrest compelled her to search for their meaning in her life, and the applied lessons resulted in her recovery.

There is a recurrent theme of innocence lost in childhood and the effects of dysfunction in the home, particularly on the children. Every other child has a message to deliver, and every other child has a lesson to learn. It doesn't matter the age of the student or the teacher; life lessons can be learned and taught by anyone.

Eileen Barsi believes that until wounded children, regardless of their age, become aware of the source of their pain, they may never realize that healing is possible.
