Does the **KDP dashboard** feel like the control panel of a jumbo jet?

Does getting your book **self published to CreateSpace** feel like you're lost in space?

...been there, done that, so let me show you the T-shirt!

The first time we self published a book to KDP, we were so **afraid to make a mistake** that it took hours. Then came the errors and the *publishing, republishing and republishing again and again* to make sure the files were right. And every time we needed to change the description or adjust keywords or pricing for the book, we had to **wait 12 hours** to see it live!

And that was just publishing to Kindle... CreateSpace is a whole other can of worms...
