**The New New Thing: A Silicon Valley Story** Michael J. Lewis

As American capitalism undergoes a seismic shift, **Michael Lewis**, author of the bestselling **Liar's Poker**, sets out on a Silicon Valley safari to find the true representative of the coming economic age. All roads lead to **Jim Clark**, the man who rewrote the rules of American capitalism as the founder of (so far) three multi-billion dollar companies--Silicon Graphics, Netscape, and Healtheon. Lewis's shrewd, often brilliantly funny, narrative provides ahead-of-the-curve observations about the Internet explosion and how the success of Silicon Valley companies is forcing a reassessment of traditional Wall-Street business models.

Weaving Clark's story together with that of this new business phenomenon, Lewis has drawn us a map of markets and free enterprise in the twenty-first century and blown the lid off the changing economy.
