Gnosticism in the Early Church (Studies in Early Christianity)

Gnosticism in the Early Church (Studies in Early Christianity)

An integrated overview of history

The volume in this series are arranged topically to cover biography, literature, doctrines, practices, institutions, worship, missions, and daily life. Archaeology and art as well as writings are drawn on to illuminate the Christian movement in its early centuries. Ample attention is also given to the relation of Christianity to pagan thought and life, to the Roman state, to Judaism, and to doctrines and practices that came to be judged as heretical or schismatic. Introductions to each volume tie the articles together for an integrated understanding of the history.

Offers insights and understanding

The aim of the collection is to give balanced and comprehensive coverage, selected on the basis of the following criteria: original and excellent research and writing; subject matter of use to teachers and students; groundbreaking importance for the history of research; background information for issues and opinions. Understanding the development of early Christianity and its impact on Western history and thought offers valuable insights into the modern world and the present state of Christianity. It also provides perspective on comparable developments in other periods of history and reveals human nature in its religious dimension.
