## **The Soviet Union and the Law of the Sea (Study of Origins and Development of Russian and Soviet Maritime Law)** William E. Butler

The law of the seas promises to engage fully the attention of diplomats and jurists alike during the 1970s, as proposals are considered to revise the 1958 Geneva Conventions on the Law of the Sea or to draft new conventions dealing with pollution, the deep seabed, the arctic regions, the breadth of the territorial sea, fishery jurisdiction, or related subjects. Until now there has been no systemic study available concerning the origins and development of Russian and Soviet Union maritime law. Dr. Butler's study, the most comprehensive analysis in any language, including Russian, of the Soviet approach to the law of the sea, ably fills this gap in scholarship. The maritime law specialist, those interested in problems of Soviet foreign policy and international law, and those concerned with maritime affairs generally will find in this volume a vast body of legal data on Soviet behavior not generally accessible or adequately analyzed previously.
