Brutal: Manhood and the Exploitation of Animals Brian Luke

The first integrated theory of manhood's relationship to hunting, animal experimentation, and animal sacrifice

In *Brutal*, Brian Luke explores the gender divide over our treatment of animals, exposing the central role of masculinity in systems of animal exploitation. Employing philosophical analysis, reference to empirical research, and relevant personal experience, Luke develops a new theory of how exploitative institutions do not work to promote human flourishing but instead merely act as support for a particular construction of manhood. The resulting work is of significant interest both to animal advocates and opponents of sexism.
