Risk Based E-Business Testing (Artech House Computer Library,)

Paul Gerrard, Neil Thompson

Risk Based E-Business Testing (Artech House Computer Library,) Paul Gerrard, Neil Thompson
Professionals in the world of e-business need a reliable way of gauging the risks associated with new endeavours. This hands-on guide presents an effective approach to using risk to conduct test strategies. It helps professionals understand the risks of e-business and conduct risk analysis that identifies the areas of most concern. The book provides the know-how to prepare a test strategy based on early risk analysis and to construct the detailed test process that meets the needs of management. Using a technique called Failure Mode and Effect Analysis (FMEA), the book shows how to use risk-based methodologies in e-business development, especially when developing novel applications using new technologies. This guide should be of interest to: e-business developers, managers and technical staff; software testers; and test and product managers.
