Introduction to Programming Using Visual Basic Plus MyProgrammingLab with Pearson eText -- Access Card Package (10th Edition) David I. Schneider

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

For courses in Visual Basic Programming
This package includes MyProgrammingLab™.

From the Beginning: A Comprehensive Introduction to Visual Basic Programming

Schneider's *Introduction to Programming Using Visual Basic, Tenth Edition* brings continued refinement to a textbook praised in the industry since 1991. A favorite for both instructors and students, Visual Basic 2015 is designed for readers with no prior computer programming experience. Schneider introduces a problem-solving strategy early in the book and revisits it throughout allowing you to fully develop logic and reasoning. A broad range of real-world examples, section-ending exercises, case studies and programming projects gives you a more hands-on experience than any other Visual Basic book on the market.

The **Tenth Edition** keeps the pace with modern programming methodology while incorporating current content and practices. Each chapter is rich yet concise due to the author's focus on developing chapters around crucial subjects rather than covering too many topics superficially. The amount and the range of projects provided in the text offer flexibility to adapt the course according to the interests and abilities of the readers. Some programming projects in later chapters can be assigned as end-of-the-semester projects.

Pearsonize learning with MyProgrammingLab .

MyProgrammingLab is an online learning system designed to engage students and improve results. MyProgrammingLab consists of a set of programming exercises correlated to specific Pearson CS1/Intro to Programming textbooks. Through practice exercises and immediate, personalized feedback, MyProgrammingLab improves the programming competence of beginning students who often struggle with the basic concepts of programming languages.

- **Interactive Practice** provides first-hand programming experience in an interactive online environment.
- **Error Messages for Incorrect Answers** give students immediate personalized feedback. The error messages include both the feedback from the compiler and plain English interpretations of likely causes for the incorrect answer.

- **Step-by-step VideoNote Tutorials** enhance the programming concepts presented in your Pearson textbook by allowing students to view the entire problem-solving process outside of the classroom—when they need help the most.
- **Pearson eText** gives students access to their textbook anytime, anywhere. In addition to note taking, highlighting, and bookmarking, the Pearson eText offers interactive and sharing features. Rich media options let students watch lecture and example videos as they read or do their homework. Instructors can share their comments or highlights, and students can add their own, creating a tight community of learners in your class.
- The Pearson eText companion app allows existing subscribers to access their titles on an iPad or Android tablet for either online or offline viewing.
- **Dynamic grading and assessment** provide auto-grading of student assignments, saving you time and offering students immediate learning opportunities:
 - A **dynamic roster** tracks their performance and maintains a record of submissions.
 - The **color-coded gradebook** gives you a quick glance of your class' progress. Easily drill down to receive information on a single student's performance or a specific problem. Gradebook results can be exported to Excel to use with your LMS.

From reader reviews:

George Sanders:

What do you with regards to book? It is not important along with you? Or just adding material when you want something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have extra time? What did you do? Everybody has many questions above. They have to answer that question due to the fact just their can do in which. It said that about guide. Book is familiar in each person. Yes, it is appropriate. Because start from on jardín de infancia until university need this specific Introduction to Programming Using Visual Basic Plus MyProgrammingLab with Pearson eText -- Access Card Package (10th Edition) to read.

Charlie Hartman:

Now a day individuals who Living in the era just where everything reachable by interact with the internet and the resources in it can be true or not involve people to be aware of each facts they get. How many people to be smart in having any information nowadays? Of course the answer is reading a book. Reading a book can help men and women out of this uncertainty Information specially this Introduction to Programming Using Visual Basic Plus MyProgrammingLab with Pearson eText -- Access Card Package (10th Edition) book because this book offers you rich info and knowledge. Of course the info in this book hundred percent guarantees there is no doubt in it you probably know this.

Rose Davies:

Information is provisions for folks to get better life, information today can get by anyone on everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider if those information which is in the former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one often the resource are convinced. If you obtain the unstable resource then you buy it as your main information you will see huge disadvantage for you. All of those possibilities will not happen with you if you take Introduction to Programming Using Visual Basic Plus MyProgrammingLab with Pearson eText -- Access Card Package (10th Edition) as your daily resource information.

Samantha Smith:

As a college student exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some guide, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that examining is not important, boring and can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Introduction to Programming Using Visual Basic Plus MyProgrammingLab with
