UltraAgent Surefire's plan is simple: Capture the transhuman thief Raven. Win back the respect of her father. Get a raise.

Easy, right?

Except Surefire just broke the number one rule of her employer, UltraSecurity, a niche security firm that solves crimes committed by genetically enhanced humans like Raven. She trailed Raven into a warehouse without backup. And something more powerful than any transhuman is waiting inside.

Raven's plan is simple: Atone for his past crimes. Return stolen spiritual artifacts to restore the world's balance. Don't get caught by UltraSecurity.

Easy, right?

Until a spunky UltraSecurity agent is suddenly on his tail, although Raven wishes she was on ... well, never mind ... he can't get distracted from his mission. Because she's followed him into a warehouse filled with his reclaimed relics, and Raven's ex-partner in crime is about to unleash a supernatural-sized complication into his plan.

His old partner has accidentally summoned an Aztec god who will destroy the world unless Raven stops this spirit with a superiority complex. To do this, Raven must team up with Surefire and reveal the truth about his

powers, exposing her to a force that can either save the world or destroy them both.

Following Raven into that warehouse throws Surefire into a surreal world filled with moody gods, day-glo skulls, dizzying dimensional portals, maniacal half-roach magicians, and a sexy thief who is more than he appears under his snug shirt. Is Raven a criminal, or is he working for a higher power? Surefire needs to be certain, because if she joins him on this mission, she'll have to surrender everything she believed in for a surefire way to save the world, discover her destiny and find true love.
