Evangelicalism in America

Randall Balmer

Evangelicalism in America Randall Balmer

Evangelicalism has left its indelible mark on American history, politics, and culture. It is also true that currents of American populism and politics have shaped the nature and character of evangelicalism.

This story of evangelicalism in America is thus riddled with paradox. Despite the fact that evangelicals, perhaps more than any other religious group, have benefited from the First Amendment and the separation of church and state, several prominent evangelical leaders over the past half century have tried to abrogate the establishment clause of the First Amendment. And despite evangelicalism's legacy of concern for the poor, for women, and for minorities, some contemporary evangelicals have repudiated their own heritage of compassion and sacrifice stemming from Jesus' command to love the least of these.

In *Evangelicalism in America* Randall Balmer chronicles the history of evangelicalism—its origins and development as well as its diversity and contradictions. Within this lineage Balmer explores the social varieties and political implications of evangelicalism's inception as well as its present and paradoxical relationship with American culture and politics. Balmer debunks some of the cherished myths surrounding this distinctly American movement while also prophetically speaking about its future contributions to American life.
