Land of the Living Mr James M Pinard

James Creed is a twenty year old man who wakes up in the middle of the night in the year 1985. The only catch is he remembers being 50 years old in the year 2015, and the last memory he has of his parents and the girl that he loved is that they all died several years ago. He slowly begins to realize that he has landed in an alternate version of the 1980's as part of a secret time travel program headed by President Kennedy that uses "Mind Time Travel." His son has traveled back from the year 2035 to help him discover the real reason he was sent back in time. He is being hunted by a dangerous time traveler who wants him dead, and a mysterious ghost who wants to help him. He has one chance to save the woman he loves and change a future existence that has gone wrong in the Land of the Living..... This is the first book of a series with Volume 2 coming in the not too distant future... Here are some clips from reviews for Volume 1: "All in all, this one will not disappoint the reader as it is more than a novel about time travel. Love and life, happiness and sadness and all of the emotions that a human is capable of feeling are contained in these pages.. Most highly recommended." "There are so many twists and turns this is probably one of the most original premises I've come across in awhile..." "It was intelligent, weird, sad, dark, funny, deep, tragic...This book will stay with me for a long time, but in a good way." "I liked that I never quite knew where the story was going, and it was anything but predictable..."
