Special Edition Using Linux System Administration Arman Danesh, Gautam Das

Special Edition Using Linux Administration is the complete, comprehensive reference book for the experienced administrator who needs to learn to run a Linux system and successfully manage it. This book has a great appeal to those administrators whose knowledge is limited to Windows or NetWare networks as they integrate Linux into their infrastructure. Current Linux or Unix users wishing to apply their knowledge towards system administration will also find it invaluable. Useful topics include: Linux deployment and installation, user administration, Samba and NT-Linux integration, Linux process management and daemons, Network configuration and TCP/IP, routing with Linux, Linux and firewalls, using Linux as an Intranet server, and Linux database servers.
